

## PURPOSE

The intent of the landscape irrigation controller rebate is to reduce outdoor water use and promote healthy attractive landscaping by improving watering efficiency.

## ABOUT THE PROGRAM

The Landscape Irrigation Controller Rebate Program is effective beginning August 5, 2005, and replaces all previous controller rebate programs. Properties that have received a rebate credit in a previous controller rebate program are not eligible for this program. The irrigation controller rebate is a one-time credit per property that will be applied to the water bill.

A rebate is offered for the purchase of a new multiprogram, permanently hardwired, electronically activated irrigation controller. The rebate amount is limited to actual cost (excluding taxes) or \$250 per unit, whichever is less.

Funds are limited. Rebates will be processed until funds are depleted.

## WHO IS ELIGIBLE

The landscape irrigation controller rebate is available to all properties that receive water from the Scottsdale water system and meet the program qualifications and requirements stated below.

## QUALIFICATIONS

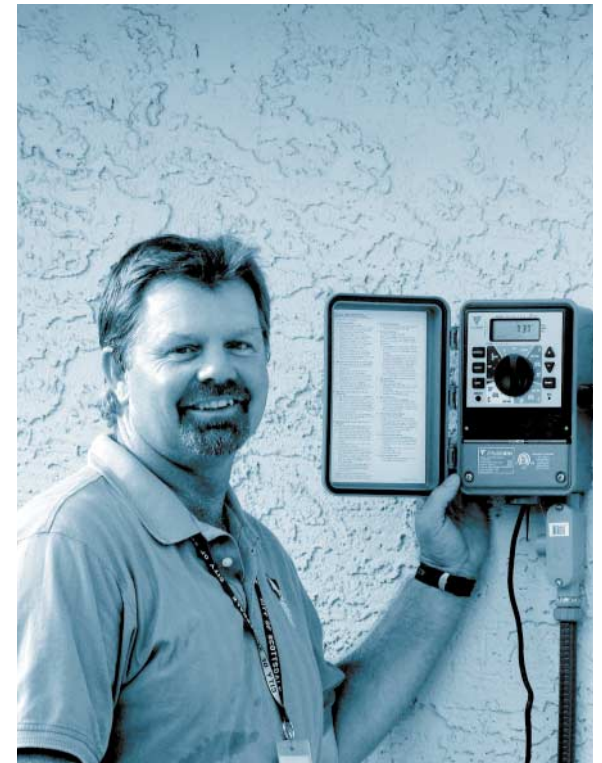

Applicant must be the property owner or the party legally responsible for paying the water bill.

## REQUIREMENTS

- Controller must be purchased and installed after August 5, 2005.
- An itemized dated sales receipt for purchase of the controller is required.
- A backflow device must be installed and inspected for nonresidential properties and multifamily residential properties. Call 480-312-5650 for more information.

## TO APPLY

- Complete and sign the application form.
- Submit the application and required sales receipt to the Water Conservation Office. Only complete applications submitted with required information will be processed. If all requirements are met, the rebate will be approved, and a credit will be applied to your water bill within two billing cycles.
